Windship Day 2026

Sail Cargo Ships – a technology-driven new market?

31. August 2026 | 09:30 – 17:00

Museum Ship PEKING, Deutsches Hafenumuseum, Stiftung Historische Museen Hamburg

The “**Windship Day 2026**” is a high-level conference for stakeholders from shipping, technology, research, finance, and policy to discuss the future of wind-powered commercial shipping. Participants include shipowners, operators, cargo owners, logistics companies, naval architects, researchers, investors, regulators, ports, and innovators shaping the next generation of sustainable maritime transport.

Focus Topics

- Technical innovation and vessel design for modern sail cargo ships
- Commercial viability and competitive business models
- Cargo market opportunities and logistics integration
- Networking aboard the historic PEKING

Hosted by

**Fraunhofer Workgroup Sustainable Maritime Mobility and
Deutsches Hafenumuseum, Stiftung Historische Museen Hamburg**

Fraunhofer Workgroup
Sustainable Maritime Mobility

Held under the framework of the **RASANT – Hybrid Sail Cargo Ships** project

Supported by

Funded by the German Federal Ministry of Transport.
